**Pacifico Energy Commences Commercial Operations
of Pacifico Energy Wakayama Mega-Solar Plant**

TOKYO-- Pacifico Energy K.K. (Head Office: Minato, Tokyo; Representative Director: Hiroki Matsuo) is pleased to announce the commencement of commercial operations of a 111 MW(DC) solar power generation plant (the "Plant") in Nishi-Muro, Wakayama Prefecture from April 2022.

The EPC contractor of the Plant is Sharp Energy Solutions Corporation, who has extensive international experience in this field, and the Plant was mainly constructed on the site of a golf course. The Plant will generate approximately 150 million kilowatt hours of electricity annually, contributing to a reduction of approximately 124 thousand tons of CO₂ emissions for an electricity supply period of around eighteen (18) years.

This project was mainly financed by MUFG Bank, Ltd. with Baker McKenzie acting as legal counsel to Pacifico Energy.

Pacifico Energy has now commenced construction on fifteenth (15) solar power plants throughout Japan (including the Plant) totaling 1,293 MW(DC), twelve (12) of which (totaling 1,041 MW(DC)) have been completed and are now in commercial operation.

Leveraging the know-how and expertise accumulated and refined through extensive experience with development, construction and asset management of utility-scale solar power plants, Pacifico Energy will continue to develop, construct, and operate renewable energy power plants to promote a low-carbon society. Pacifico Energy is committed to its support of renewable energy as a stable, long-term, clean-power solution in Japan, and will continue to cooperate with local and regional communities to realize a more sustainable world.
